

Georgia's Piedmont is fast becoming the hub of the local food movement. Here in Madison and Morgan County in the heart of the Piedmont, the Madison-Morgan Conservancy is supporting commodity farming as well as the production of local and organic meats, eggs, vegetables, and associated farm products. Through **FARMeander** (Georgia's first farm trail), the Conservancy invites visitors to explore area farms, markets, festivals, and inns that celebrate the agrarian heritage of the region. Use this map and guide to meet the farmers and delight in the natural, agricultural, and historic resources in this beautiful place.
