seasonal shopping events, festivals, and 5K races,  
there is a little something for everyone. Follow  
us on social @DowntownCartersville to stay  
up-to-date with all of our happenings**

## **Cartersville was recently awarded the Georgia Exceptional Main Street designation!**

Only 20 Georgia communities have surpassed the expectations of the Main Street program, which calls for the revitalization of historic commercial districts, and are known as GEMS – Georgia's Exceptional Main Street communities.

Georgia's GEMS cities have all struck a healthy balance between Main Street's four main pillars: economic vitality, the creation of incentives and financial tools to help new and existing businesses; design, the enhancement of a community's unique buildings and design characteristics; promotion, the positioning of the downtown as the center of the community; and organization, the cultivation of partnerships and resources that leads to a strong Main Street foundation.

*Main Street America has been helping revitalize older and historic commercial districts for more than 40 years. Today, it is a network of more than 1,600 neighborhoods and communities, rural and urban, who share both a commitment to place and to building stronger communities through preservation-based economic development. Since 1980, communities participating in the program have leveraged more than \$74.73 billion in new public and private investment, generated*

*The Main Street Approach® is a proven methodology that empowers communities to utilize their distinctive assets, such as their independent businesses and historic character, to revive their commercial districts, strengthen local economies and increase civic engagement. Since 1980, the Main Street Four-Point Approach® to downtown revitalization has been used by more than 100+ communities statewide to create more than 80,000 net new jobs and stimulate a 7.3 billion dollar private/public investment.*
