

More THAN A Trail

The Carrollton GreenBelt is the largest greenspace and greenway conservation project ever undertaken in the city of Carrollton's almost 200-year history. The 18-mile long linear city park is the largest paved loop trail system in Georgia and provides residents and visitors a unique escape.

By integrating recreation with transportation, the Carrollton GreenBelt provides a viable, safe and motor-free way to reach points of interest throughout the city, all while promoting health, fitness and livability.

The Carrollton GreenBelt connects several of the city's established neighborhoods with destinations including the University of West Georgia, Carrollton City Schools, Southwire Company, Tanner Medical Center/Carrollton, numerous shopping centers and a number of city parks. For users who do not live in close proximity to the trail, trailheads located in Laura's Park at Hays Mill, East Carrollton Park, Lakeshore Park and Hobbs Farm Park, provide free parking and easy trail access.

Carrollton Bike Share
