

# Candler Field Museum

*Where history comes alive and education lights the future.*

## *Education*

The Youth Aviation Program promotes, advocates and is a resource for mentoring young people toward a meaningful career in aviation. Students are taught the skills of restoring, repairing and maintaining aircraft. They are then offered the opportunity to learn to fly. We invite you to visit the YAP hangar and see the students at work!

## *Events*

Attend events throughout the year including Vintage Day and Veterans Day!

The original Candler Field is now Hartsfield-Jackson Atlanta International Airport, the world's busiest airport! Step back in time as Candler Field Museum recreates the original Atlanta Airport as it existed in the 1920's and 30's. You'll see period aeroplanes that still fly, automobiles that still run and see how people dressed and lived during this bygone era. It's like turning back the clock nearly 100 years. Visit our website at [www.Candlerfield.com](http://www.Candlerfield.com) and sign up for our monthly e-newsletter!

## *Candler Field Flying Club*

The purpose of the Candler Field Flying Club is to offer affordable flight instruction to Candler Field Museum members, their families, and friends. Emphasis is placed upon young people and teaching the basics of flying to include both ground instruction and flight instruction. For more information, go to [www.candlerfieldflying.com](http://www.candlerfieldflying.com).

## *Fine Dining & Event Center*

Enjoy great food from our full menu!
