

## WE'VE EARNED OUR STRIPES

Chehaw Wild Animal Park was originally designed by Jim Fowler, a native of Albany, Ga., and host of Wild Kingdom. His attention to spacious exhibits offers extraordinary room for the animals that call Chehaw home.

The Wild Animal Park boasts over 212 specimens, representing 55 species of wild animals. Exhibits include African black rhino, American bald eagle, lemurs, meerkats, zebras, cheetahs and many more. Enjoy all of the exhibits Chehaw has to offer as you stroll through the scenic boardwalks and cypress swamp.

Also make sure to hang around for the alligator feedings and cheetah runs. These events allow you to see the animals close-up and view how they react in their natural environment.

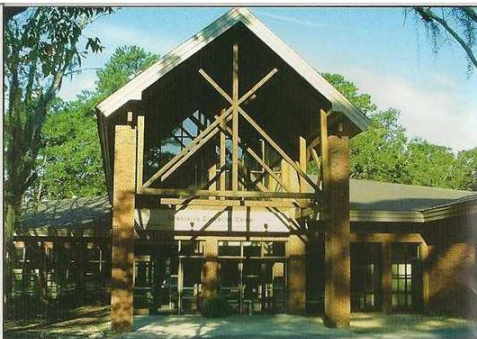

With over 800 acres of pristine, conservation land and a wild animal park dedicated to education, Chehaw is a unique attraction for South Georgia. Being one of only two accredited zoos in Georgia, aside from Zoo Atlanta, Chehaw continues to be devoted to the three areas it was founded on; conservation, preservation and education.

From the Wild Animal Park to the endless recreational opportunities, Chehaw has an activity for every visitor. Come see what nature's playground has to offer you.
